

NOW HIRING

Data Analyst

The Wichita Area Metropolitan Planning Organization (WAMPO) is seeking to fill the position of “**Data Analyst**” **full-time/ part-time**. This position is a temporary position, with a possibility of extension based on annual budget. This position will provide assistance in completing planning processes and will provide students the opportunity to have “hands- on” planning experiences and to develop work samples.

The **Data Analyst** is responsible for assisting in the process of data collection, data analysis, and data maintenance that supports transportation planning. Maintains data for transportation planning, typically demographic and socioeconomic data, multimodal transportation infrastructure data, safety data, traffic data, congestion monitoring data, and transportation performance management (TPM) related data. Perform data maintenance through Geographical Information Systems (GIS) databases, programming scripts in Python, ArcGIS, and TransCAD software. Prepares data inputs for travel demand forecasting models. Analyze data, and prepare maps displaying geographic data for the WAMPO area. Assists team members in the development of MTP, TIP, studies, planning activities, as well as public participation. This position also assists in the development, maintenance, and enhancement of WAMPO’s regional travel models, and supports model applications for various projects undertaken by the agency. Assignments may include programming to support model development and data analysis, conducting and analyzing travel surveys; preparing travel model inputs such as land use, transportation network characteristics, and demographic and employment data; estimating future transportation system demand for long-range plans and the design of individual highway and transit facilities; and calculating operational statistics such as travel time, delay, and level-of-service.

Duties: Typical tasks and duties of a Data Analyst may include, but are not limited to, the following:

- Maintain data for transportation planning, typically demographic and socioeconomic data, multimodal transportation infrastructure data, safety data, traffic data, congestion monitoring data, and transportation performance management (TPM) related data.
- Perform data maintenance through Geographical Information Systems (GIS) databases, programming scripts in Python, ArcGIS, and TransCAD software.
- Prepare data inputs for travel demand forecasting models.
- Analyze data and prepare maps displaying geographic data for the WAMPO area.
- Analyze data and prepare maps displaying geographic data for the WAMPO area.
- Assist in the development of the Metropolitan Transportation Plan (MTP), Transportation Improvement Program (TIP), studies, planning activities, as well as public participation.

- Lead tasks in the development, calibration, validation, and documentation of transportation and land use forecasting models. Write computer programs and scripts needed for travel simulations and data analysis.
- Assist in designing and conducting various types of travel surveys and data collection for model updates and individual highway and transit studies.
- Support model applications, analyze and summarize model outputs, and present findings and recommendations to technical committees and the public.
- Develop state-of-the-art models with Python, ML, and AI tools as needed.
- Other tasks assigned by the supervisor.

Knowledge, Skills and Abilities developed through this position:

- Knowledge of the principles of traffic engineering, econometrics, statistics, or computer science that is applicable to transportation system modeling and analysis. Knowledge of Microsoft Access, SQL, or other database programs is desired. Knowledge of geographic information systems (GIS) is desired. Knowledge of major travel demand modeling software, such as VISUM, CUBE, TransCAD, or EMME, or knowledge of microscopic or mesoscopic simulation software, such as VISSIM, is a bonus.
- Solid analytical and quantitative skills. Programming language skills, Python, or other.
- Ability to effectively present results of research and technical analyses in oral, written, and graphic form. Ability to write clear and concise reports. Ability to make coherent oral presentations at public meetings.
- Ability to establish and maintain effective working relationships with associates, planning officials, and the general public. Ability to maintain integrity, credibility, and dedication to the mission of WAMPO.

Education and Experience Required:

This is an entry-level position. One year of experience, or more is desirable, Master's degree can be substituted for one year experience. This position would be ideal for candidates with backgrounds in engineering in software/mechanical/electrical/transportation, or transportation planning, civil engineering, GIS, computer science, or similar programs.

Compensation:

TBD, based on qualifications.

About WAMPO:

WAMPO is the Metropolitan Planning Organization (MPO) for the Wichita metropolitan region. MPOs are federally required regional policy bodies in urbanized areas with populations over 50,000. MPOs recognize the critical links between transportation and other societal goals such as economic health, air quality, environmental resource management, and overall quality of life. WAMPO is responsible, in cooperation with the State of Kansas and Wichita Transit, for carrying out the metropolitan transportation planning process in 22 cities and 3 counties in South Central Kansas.

Position open until filled. For the complete job description, please visit www.wampo.org/wampo-is-hiring.

To apply: Please send your resume, cover letter, transcript (unofficial), and application to Chad Parasa, Executive Director, at chad.parasa@wampo.org.

WAMPO is an Equal Opportunity Employer. WAMPO does not discriminate in its employment and or/ personnel practices on the basis of race, color, religion or creed, gender, age, national origin, disability, sexual orientation, veteran status, political affiliation, or marital status/relationship.

Verification of identity and employment eligibility to work in the United States is required by federal law.

For a list of acceptable documents that establish these criteria, please refer to the federal [Form I-9](#).

E-Verify: The Wichita Area Metropolitan Planning Organization (WAMPO) participates in E-Verify and will provide the federal government with your I-9 information to confirm that you are authorized to work in the U.S. For additional information regarding E-Verify, please click [here](#).
